A-Reading

1-Read the following passage then answer the questions below;

1- Chocolate is made from beans which grow in pods on a cocoa tree. These beans are grown where it is warm all year round. The beans are usually farmed two times a year. The workers use a long stick with a large knife to cut the pods down. They open the pods with their hands, so that the beans inside don't break.

2- Next is the fermentation stage. The beans are put into wooden boxes and are covered with banana leaves for a week. Then they are dried in the sun for another week. After that, they go to the factory. In the factory, the beans are cooked in big ovens.

3- Then the shells are cracked and the inside part is made into a mixture.

The mixture is made sweet with sugar, butter and milk. When the mixture is cold, we have the final product – chocolate!

1-The United Arab Emirates was formed in 1971 and is made up of 7 emirates. The UAE flag is red, green, white and black. Each colour has a meaning: white represents good behaviour, green is for the trees and plants, black is for battles and red represents bravery, strength and courage.

2-About 9.5 million people live in the UAE, but less than one fifth of the population is Emirati. The UAE is home to one of the most famous landmarks in the world – the Burj Khalifa. This amazing building was the tallest building in the world when it was built in 2010. You can take a lift to the top, but you need

to be brave as it has a glass floor and it's a very long way up. The national animal of the UAE is the Arabian oryx and the national bird is the falcon.

3-The UAE shares a border with Saudi Arabia and Oman. The largest emirate, Abu Dhabi, makes up 87% of the UAE's total area (67 340 km²) and the smallest emirate, Ajman, is only 259 km². The UAE coast stretches for more than 650 km along the southern shore of the Arabian Gulf. There is a man-made island in Dubai, Palm Jumeirah, which can be seen from space. The UAE has hot summers and warm winters. The hottest months are July and August, when the average maximum temperatures reach above 45°C. In the Al Hajar Mountains, temperatures are considerably lower, as a result of increased height. Sometimes they can be covered in snow.

Fujairah is the fifth largest emirate and has more mountains than desert. That means it rains more here, so it is very green. It is also the only emirate that faces onto the Gulf of Oman and not the Arabian Gulf.

The drive from Ras Al Khaimah along the long coastline offers lush surroundings and there are amazing views out to sea. You must visit the Al Badiyah Mosque, which is in the Badiyah region of Fujairah. It is the oldest mosque in the UAE.

No one knows exactly when the ancient mosque was built, but it is very old. Some people think the mosque was built in 640 CE. Others think the building may have been built as long ago as 1446 BCE The mosque is only 53 square metres, which is small. It was built from materials found in the area, including stones of different sizes and mud. The gardens of the mosque are beautiful and looked after daily. Daily prayers continue to be said in the mosque, which is one of the main tourist attractions in Fujairah

Burj Khalifa or "Khalifa Tower" (Arabic: برج خليفة) is a very tall skyscraper in Dubai, United Arab Emirates and is the world's tallest building ever built, at 828m (2,717ft). Before the building opened, it was called Burj Dubai. The building is 160 floors high.

Construction of the tower was started in 2004. The building was officially opened on 4 January 2010. It is the tallest structure made by humans in the world. The building is more than 300 metres (980 ft) taller than Taipei 101. Taipei 101 was the tallest building until 2010 before Burj Khalifa was built. But the Burj Khalifa may not hold this record for very long because an even taller building called the Jeddah Tower is being built in Jeddah in Saudi Arabia and it will be taller than 1 kilometer.

Adrian Smith designed the tower. He worked with Skidmore, Owings and Merrill (SOM) until 2006. It was built by Samsung Engineering & Construction, Besix, and Arabtec.^[5] The tower cost US \$1.5 billion to build. The building is part of a 2 km building project on Sheikh Zayed Road, Downtown Burj Khalifa. It is near Dubai's main business district.

Means of Transport

We generally walk for shorter distance and take any transport for longer distance. In olden days bullock-carts, horse driven cart and boats were only means of transport for commuting from one place to another. These means are still used in villages to travel and transport things. Animals like donkeys, camels, and are used to carry loads for longer distances.

1-Roads connect different villages, town and cities. The most common road vehicles include buses, trucks, motorcycles, scooter, rickshaw, car, vans and bicycles. Bus carries large number of passengers near about 50-60. Rail transport includes all transport over rails or tracks. This includes trains (both passenger as well as goods train), metro and trams. Rail transport carries more people or goods compared to road transport.

2-Air transport includes all transport through the air such as airplanes, helicopters. It is the fastest means of transport and connects all major cities. Air transport is expensive. It is possible to reach other country in few hours or a day through air transport. Hot air balloon and blimp is a flight technology used for pleasure rides. A rocket is a flying vehicle used for space exploration or airborne weapon.

3-Water transport includes boat, ship, steamer, yacht, submarines. Steamers and boats sail along big rivers and ships sail in the oceans and seas carrying passengers and goods from place to another. Water transport is slow as compared to road, rail or air transport.
